NEPSY-II Overview

The NEPSY-II is a child neuropsychological assessment tool being used with increased frequency in schools for the evaluation of factors that contribute to education and learning difficulties, and in general child neuropsychological practices. The NEPSY-II is a battery of subtests that assess executive functioning and attention, memory and learning, language, social perception, sensory motor functioning, and visual spatial processing. An introduction to the NEPSY-II and its role in the current education environment in California will be provided. Brief clinical and school based applications of the NEPSY-II will also be reviewed.

Educational Objectives

At the completion of this workshop, the participant will be able to:

1. Describe the psychometric properties of the NEPSY-II
2. Describe the administration and scoring of the NEPSY-II
3. Describe interpretation of the NEPSY-II

CE Credits

Workshop participants must attend the entire session for CE credits. A certificate of completion will be given to each person who completes the workshop.

The Department of Psychology, Argosy University, Seattle is approved by the American Psychological Association to sponsor continuing education for psychologists. The Department of Psychology, Argosy University, Seattle maintains responsibility for this program and its content.

For additional information concerning the cost of this workshop, the refund/cancellation policy, additional fees, and other details please contact the administrator of the Argosy University, Seattle CE program, Douglas Kerr, Ph.D., dkerr@argosy.edu .
